Empower your team

Introducing new operator, refresher, and advanced operator training

Every procedure you perform is vital for a patient, so you cannot afford to compromise on training. It is a constant need whether you are bringing on new employees or refreshing and cross-training the existing ones. Maintaining the competence and confidence of your team is an important way to enhance their job satisfaction and increase retention.

Terumo Blood and Cell Technologies is here to help. Rooted in our extensive experience in blood and cell collection, therapy, and research, our industry-leading professional education program helps blood centers, hospitals, and research organizations acquire and refine procedural skills and push the boundaries of their efficiencies. The classes combine theoretical context, practical use, best practices, and hands-on exercises.

Through our Veda™ Skills solution, we are pleased to offer the following training options for our Mirasol, Trima Accel, and Reveos systems:

- **Getting Started:** Get your projects and services set up and learn to use them effectively. This training is scheduled automatically with the purchase of new products.
- **New Operator:** In healthcare environments across the globe, staff fluctuation is a reality that requires constant training. Designed to help new team members become confident and productive as soon as possible, this training can also serve as a Getting Started refresher for existing staff.
- **Refresher:** These modules are specifically designed to refresh existing staff on processes and best practices to keep their skills sharp.
- **Advanced Productivity:** Gain deeper insight and explore best practices for ongoing success. Available for selected product lines.
- **Train the Trainer:** Classes that allow your designated team members to become in-house experts who can train others. Available for selected product lines.

Veda Skills courses are rooted in our extensive experience in blood and cell collection and apheresis.

- Conveniently delivered at your site
- Mix of lecture and hands-on device time
- Maximum of five attendees per class
- Delivered by Terumo Blood and Cell Technologies experts

Training Classes
